

# AVerTV Hybrid Volar MAX - USB PCTV tuner (H264) HDTV and FM Radio on Your PC!

## Create your splendid moments!

Thanks to the support of Digital TV (ATSC) or Unencrypted Digital Cable (ClearQAM\*) reception; the AVerTV Hybrid Volar MAX is the ideal travel mate for viewing High Definition TV on the go. With the included AVer MediaCenter software application, supporting Windows 7, Vista Media Center and XP Operating Systems, users will enjoy breathtaking and glorious TV viewing with PVR features.

## Enjoy Unencrypted Digital Cable (ClearQAM\*) and Over-the-Air Digital TV in HD

With Unencrypted Digital Cable (ClearQAM) support, you can easily enjoy more Digital Cable entertainment and view "ClearQAM" Digital TV Cable channels with HD quality. Beyond that, while watching Free Over-the-Air Digital TV programs, you can easily use the TimeShift features to control HDTV programs on your PC.

## Record Video in H.264 format and playback on iPod/PSP

With advanced H.264 recording compression technology, you can record your favorite TV shows into 320 x 240 resolution, download and play it on your iPod/PSP or any other portable player! H.264 recording also saves more than 4X the hard disk space, compared with the original MPEG-2 format.

\* ClearQAM is only for AVer MediaCenter and Windows Media Center TV Pack 2008

# AVerTV Hybrid Volar MAX - USB PCTV tuner (H264) HDTV and FM Radio on your PC

**AVer MediaCenter**

**Your Personal Multimedia Control Center - AVer MediaCenter**

**TV** An easier way to enjoy and record TV or FM programs, even watch multiple TV channels at the same time via an antenna, cable, or satellite TV signals. You can also listen to live radio. Teletext overlays on the screen just like it would on your TV for convenient viewing.

**Music** AVer MediaCenter offers an intuitive way to listen to your music from files and folders by date, name, or format. Easily access your personal digital music library, play it as background music while viewing slideshow photos or using other functions on your computer.

**Video** It offers an intuitive way to view your video files and folders by date or by name, providing an interactive video playback experience.

**Pictures** Users can capture images from any source, including analog TV, digital broadcast, camcorder or VCRs. Consecutive snapshots or photos can then be viewed as a slideshow with background music and stylish effects.

**Support real-time H.264 recording and playback on your iPod**

Real-time H.264 recording and playing provides higher compression rate and high video quality for saving more than 4X hard disk space comparing with MPEG-2 format. Moreover, it can support up to 320 x 240 iPod video format recording, allowing you to enjoy your favorite shows on your iPod.

**Easily customize your viewing experience**

- PIP / PBP Setting allows the viewing of multiple channels simultaneously
- Single / Sequential Snapshot
- Customized Color Adjustments
- Media Files Management
- Complete Channels Scan Capability
- Smart Power Saving Management
- Record TV Programs in MPEG-1/2/4\* Format

## Specifications

### Input Signal

- 75Ω TV & FM Antenna
- S-Video & Composite (RCA)
- L/R Stereo

## Minimum System Requirements

### Recording & TimeShifting in MPEG-2

- Pentium Mobile® 1.8GHz
- Pentium® 4 2.6GHz (Hyper Threading)
- AMD® AthlonX 2600+

### Analog TV on MCE Platform

- Pentium® 4 3.0GHz or Equal AMD CPU

### For H.264 Recording

- Pentium® 4 3.0GHz (Hyper Threading) or Equal AMD Processor for Analog TV
- Intel® Dual Core® 1.6GHz or Equal AMD® Athlon x2 3800+ for Digital HDTV

- 128MB VGA Card with DirectX 9.0c
- 1GB RAM
- USB 2.0 Port
- Sound Card
- Windows XP or Later (32 and 64 Bit)

◆ Please visit AVerMedia's website for the latest driver and application at: [www.avermedia-usa.com/avertv](http://www.avermedia-usa.com/avertv)

With its elegant exterior and powerful performance, the AVerTV Hybrid Volar MAX integrates traditional Analog TV, Digital TV and FM Radio allowing for an enriched Multi-Media Experience directly on your PC.

Record your favorite programs in 320 x 240 resolution with advanced H.264 recording technology. Users can upload and play back on iPod, iPhone or PSP devices.

The AVerTV Hybrid Volar MAX supports Unencrypted Digital Cable (ClearQAM), which enables direct reception of Digital Cable channels without the use of a set-top-box.

Compatible with Windows 7. If you are thinking about upgrading to Windows 7, or you are currently running it, AVerTV Hybrid Volar MAX is compatible and will support it.
